# The Things that Count

---

CARNEGIE'S MILLIONS form a MONUMENT to his THRIFT. MORGAN'S MILLIONS form a MONUMENT to his BUSINESS ENTERPRISE.

They are merely outward signs of success founded on small investments. You cannot afford to ignore the lesson they teach. Unless your surplus nickels and dimes are being put to good use, your financial future is a gamble. We all have the instincts of thrift and enterprise if energy enough was spent in developing them.

# Introductory

---

We present herewith the Fifth Edition of Henderson's Moose Jaw City Directory. We have faithfully endeavored to show within these pages the constant growth of the city in population and in commercial and industrial development.

The volume is the result of careful work; the product of an experienced field and office force, under expert supervision and working in accordance with the latest and best methods known in directory publishing. The publishers, therefore, feel confident that they are supplying their patrons with a directory that will meet the requirements of the most exacting.

Possibly no other volume or catalogue of statistics could more accurately portray the city's expansion and progress, nor more minutely represent its industrial growth and development in every department.

The directory is the one and only detailed record of a city's prosperity.

Special attention is directed to the Miscellaneous Section in the front part of the volume. This has been compiled from various records and statistics issued in the city and province.

The Classified Section in the back part of the volume, like the Miscellaneous, is so arranged as to be of the greatest value for ready reference. The information in both sections is comprehensive and pertains to everything regarding the city of Moose Jaw.

The form of the pages is much the same as last year, but to provide for the immense increase in information, and to prevent the book from becoming too unwieldy, the publishers have substituted a lighter and a better paper. Our patrons will doubtless appreciate the improved binding made possible by the change in stock.

The publishers desire to thank the general public for their courtesy and kindness in supplying information, and the subscribers for their liberal support in the production of this work.

# City of Moose Jaw

## PART I.

---

### By The Board of Trade.

Little did the pioneer think that his action in mending his "Red River" cart with the jaw bone of a moose would have such a sequence as to give the name of Moose Jaw to one of the foremost cities in Western Canada, yet, according to Indian tradition, this is so.

The Indians tell us that some fifty years ago a pioneer, Lord Dunsmore, with his wife and child, camped on the banks of what is now known as Thunder Creek, and mended the broken wheel of his "Red River" cart with the jaw bone of a moose. They afterwards spoke of the spot as the place where the white man found the moose jaw. The name is unique and has its meaning.

### Growth of the City

Ranking in the forefront of western development, Moose Jaw did not leap into the limelight in a day, but gained recognition as an industrial and distributing centre by reason of its rapid development without a boom. Many visitors know it as the "Boomless City," and Moose Jaw people are proud of the fact that it is so.

Situated in the centre of the greatest wheat belt on the American Continent, it is placed in the enviable position of shipping centre for the present and future crops of the prairie Provinces. The prairie belt of Western Canada is the most rapidly developing country in the world to-day, and the cities which are now well established will, undoubtedly, within a short time, become great centres, comparing favorably with the larger cities of the United States of to-day. Moose Jaw has, up to date,  $23\frac{1}{4}$  miles of concrete sidewalks, 32 miles of sewerage pipe, 44 miles of water main, 250 hydrants, 6 miles of storm sewers, 1612 house connections. The sewerage disposal plant, one of the most modern in Canada, takes care of 32 miles of sewerage. The Incinerator Plant has a daily capacity of 50 tons. The Caron Water Line has been completed at a cost of \$650,000, the water being brought from Caron Springs, a distance of 22 miles. This supply, it is estimated, will give sufficient water to meet the requirements of 50,000 people. Another important matter is the installing of the High Pressure Water System, costing in the neighborhood of \$200,000. The building permits of 1912 up to November the thirtieth were \$4,932,680, the permits for the same period of 1911 being \$2,425,736. In the matter of good roads, Moose Jaw is not to be left behind, there being some fifty miles of graded roads leading into the city. During the past ten months, the statement that 1912 has been Moose Jaw's Banner Year, has been proved true many times over. The ideal situation of this city as a distributing centre, and the fact of its being situated in the very heart of the greatest wheat area of the world has done much in the bringing of the city into prominence as an industrial centre. There has been a rapid development in all lines

without a boom. The confident and optimistic attitude of the business men has been fully justified by the fact that even in the most optimistic arrangements for business increases, they have, almost without exception, either had to move into larger premises or have had their own enlarged, and in many cases this has been repeated many times in the past five years.

This is an era of great growth and development in building and public construction. Some of the most important buildings which have been constructed this year are: Robin Hood Mills, Ltd., \$500,000; Hammond Block, \$275,000; Commercial Block, \$120,000; Robinson Store addition, \$120,000; Maybee Block, \$120,000; Moose Jaw Hardware, \$30,000; Post Office, 260,000; Public Library, \$75,000; Saskatchewan College, \$130,000; St. Andrew's Presbyterian Church, \$180,000; Royal George Hotel, \$100,000; Empress Hotel, \$80,000; Prince Arthur School, \$125,000; St. Anne's School, \$40,000; Bank of Montreal, \$45,000.

Buildings under construction are: Herbert Snell, Ltd., Departmental Store, \$100,000; Times Apartment Block, \$75,000. Moose Garage, \$40,000; Moose Jaw Mills, Ltd., \$350,000; Moose Jaw Cartage Co., \$35,000; Canadian Garage, \$75,000; Manley, Slater Garage, \$75,000. In addition to these many hundreds of residences have been erected.

Land values are 30 per cent. below that of other cities, and the business of buying and selling real estate is carried on in a business-like manner, without boosting or inflating. There are unlimited opportunities for the careful investor in real estate and farm lands in this vicinity.

New industries which have located in Moose Jaw during 1912 are: Dominion Electric Co., Directoyou Co., Ltd., Moose Jaw Mattress Factory, Princess Sash & Door Factory, Kasow Electric Co., Ltd., Western Canada Brush & Broom Manufacturing Co., Moose Jaw Tile & Pottery Co., Canadian Standard Auto & Tractor Co. Some other industries which will start this spring are: Morley Binder Twine Co., Railway Accessories Co., Soap Lake Soap Co., Shope Concrete Products Co., Moose Jaw Cracker Co., Ltd., Moose Jaw Engineering Co., Ltd., Metal Specialities Co., Ltd., Canadian Incandescent Light & Stove Co., Governor Controlled Wind Mill Co., Canadian Linseed Oil Co. (which will be a branch of a large American concern and the largest linseed oil plant in Canada with an established trade for their goods in Europe), Sieverkopp Gas Engine Co., Canada Wall-Board & Roofing Paper Co., Canada Pneumatic Tool Co.

We are also negotiating and will close within the next ninety days for a Concrete Machinery Company from Minneapolis; a Stove Company from St. Louis; a Gasoline Tractor Plant from Minneapolis; a Furniture Factory, a Concrete Fence Post Factory, which will make 1913 the year in Moose Jaw's history never before equalled.

### Board of Trade

Moose Jaw's Board of Trade is one of the most progressive Boards of Trade in the world, the people working in perfect harmony and supporting the action of the Board of Trade in every detail. The Board of Trade work, properly speaking, is under the charge of the Secretary, Mr. R. Patton. The industrial work, such as securing factories, engineering their construction, financing, reorganizing them, also the advertising of the city, is under the direction of Industrial

Commissioner C. E. Brown, who has had many years of experience in the United States in this field, and is conceded by all to be an expert in his line.

### Population

Eleven years ago Moose Jaw was a small town of 1,500 inhabitants. The population since then has grown steadily and with ever-increasing rapidity until to-day (1913) it is a leading city with a population of over 30,000. A conservative estimate of the population at the end of 1914 is 50,000.

### Schools

Moose Jaw has the most up-to-date and best equipped educational system in the Province of Saskatchewan. The youth receives academic, technical, physical, disciplinary and moral training by a very efficient staff of teachers, each of whom specialize in one line of education, thus giving the students the benefit of the best possible teaching in each line of training. A complete system of education such as this will produce men and women of sterling type.

### Churches

There are twelve Churches with a combined seating capacity of about 5,000, and they are filled to overflowing every Sunday, some of the churches being obliged to hold over-flow services to accommodate the increasing attendance. A new Presbyterian Church is now being built at a cost of \$180,000, capable of seating 1,600 persons.

### Y. M. C. A.

The Y.M.C.A. is very much in evidence in the city, having a membership of over 1,100, which is the highest percentage in proportion to the population of any city in Canada. The Y.M.C.A. building is fitted up with swimming pool, shower bath, gymnasium, billiard room, bowling alley, reading and writing rooms and lecture hall. The young men of the city are not slow to take advantage of the social benefits supplied by this organization, it being the favorite meeting place of the city's young men. Next year a building is proposed at a cost of \$250,000.

### Y. W. C. A.

The new Y.W.C.A. Building is now under construction at a cost of \$75,000. The city has outgrown its hospital, and a new one is to be built in the spring, at an estimated cost of \$250,000. The Sisters of Providence also contemplate erecting a large hospital in the near future. A City Hall, at the cost of \$250,000, is to be commenced in the spring.

### Railroads

As a Railway Centre, Moose Jaw holds a strategic position, it being the Grand Divisional Point of the Canadian Pacific Railway for the Province of Saskatchewan, and on the Main Line 400 miles west of Winnipeg and 400 miles east of Calgary, the divisional points of Manitoba and Alberta. Moose Jaw is at the cross roads of the railway lines running north and south and east and west. With the recent opening of the Outlook Bridge over the Saskatchewan River, all traffic from Edmonton to Minneapolis **must** pass through Moose Jaw, which **must** make it a grain and milling centre with Terminal Eleva-

tors. The C.P.R. has 52 miles of yard trackage here, the Main Line being double-tracked for a distance of 40 miles east and west of Moose Jaw. The Canadian Northern and Grand Trunk are both laying steel to the city limits at present. The former has been shipping freight over their line for the past six months from a temporary station on the outskirts of the city. If Moose Jaw has become such an important point served by only one railway, what of her future with these added railway facilities opening up new territories?

### Parks

We have been accused of being wholly utilitarian, and occupied only in chasing the almighty dollar and neglecting to cultivate the beautiful. A walk through Crescent Park, City Square, River Park, and along the River Drive, as well as through other smaller breathing spaces and along our boulevarded streets would exonerate us from that charge. Our hundred and forty thousand dollars was voted last year to be used in beautifying the city, the parks and river drives. Moose Jaw is fortunate in having a navigable river, the long summer evenings are enjoyably spent in canoeing, rowing, and motor-boating. A handsome boat-house is to be built this spring which will give an added interest to aquatic sports.

Mixed farming is now being taken up seriously and with great success. The citizens are now realizing that they can grow vegetables in their gardens for their family use, and they find this both interesting and remunerative. The reputation of our wheat and other grain farms is world wide. Reviewing the land entries for a certain period we find that 41,291 entries were made in the Province of Saskatchewan, and of this number 10,901, or one quarter of the total were recorded at the Moose Jaw Dominion Land Office.

The Moose Jaw Board of Trade are desirous of getting in touch with manufacturers and wholesalers who are contemplating establishing branches in the West. They stand ever ready to give any information desired, and to assist in obtaining suitable sites. Enquiries addressed to the Secretary, Moose Jaw Board of Trade, will be given prompt attention. Thoroughly reliable information will be gladly furnished on the conditions in this city and surrounding country to any manufacturer or wholesaler who desires a special report to a particular line of business.

### Customs

A very large amount of business with the United States is carried on at this point as will be seen by looking over the Custom House figures for the past two years. This is accounted for by the fact that Moose Jaw is situated on the direct line of the Canadian Pacific Railway from Edmonton to Minneapolis. We give a list of the Custom House Receipts since January, 1911:—

The Mayors and City Council have played important parts in the rapid development of Moose Jaw. The citizens have elected men of unquestionable integrity and ability who have conscientiously administered to the city's need. The tax rate fixed for 1913 is 10 4-5 mills, the lowest of any city in the West. The assessment figures are: 1910, \$13,548,402; 1911, \$27,770,453; 1912, \$46,000,000.

Some of the larger proposed buildings for 1913 are the new C. P. R. Depot, \$1,000,000; Moose Jaw Hotel Co., \$1,000,000; Dominion Government Armory, \$200,000; Cordova Building Co. Apartments, \$200,000; two theatres, each to cost, \$200,000, and a number of buildings to cost from \$100,000 to \$150,000.

## **Schools and Churches**

Keeping pace with business and material progress, the schools and churches of the city are up-to-date and well equipped. There is a Collegiate Institute and eight public schools, with a teaching staff of 88. The Collegiate Institute cost over \$150,000.00 and is by many competent judges considered one of the finest of its kind in the Prairie Provinces.

All denominations have their respective places of worship, the newest of which are the Zion Methodist Church, a handsome structure completed at a cost of \$81,000.00, and the new St. Andrews Church now nearing completion will cost \$150,000.

## **Banks and Industries**

The financial side of Moose Jaw development is taken care of by twelve chartered banks and one private bank. The Bank of Saskatchewan has its headquarters here. The Dominion Bank has two branches, and there is one private bank. Besides this Moose Jaw has ten other financial institutions with headquarters here

The following banks are located in Moose Jaw, viz: Bank of Nova Scotia, Canadian Bank of Commerce, Bank of Montreal, Dominion Bank, Bank of Hamilton, Union Bank, Northern Crown Bank, Royal Bank, Imperial Bank, and the Home Bank, besides the private bank of Hitchcock and McCulloch.

Moose Jaw is also the headquarters for the Bank of Saskatchewan.

## **Sewer System**

The sewer consists of separate sanitary and storm sewers, the storm sewers discharge into the creek, while the sanitary sewers discharge into the new Sewage Disposal Plant at the east end of the city.

Present Mileage of sewers is as follows: Sanitary sewers, 34 miles; storm sewers, 5¾ miles.

## **Road and Sidewalks**

The city has at present 67 miles of graded roads, 14¼ miles of plank walk and 29 miles of granolithic walk.

### **Extensions During 1912 and Spring of 1913.**

12 miles of granolithic walk.

4 miles of creosote wood block paving.

There are twelve hotels, together with a large number of distributing houses, flour mills, oatmeal mills, brewery, brickyards, daily, semi-weekly and monthly newspapers, while all lines of business, from retail stores to factories are located to attend to the wants of a rising community. From time to time additional wholesale and industrial houses are opening up at this point, to encourage which the city offers the necessary sites with spur track facilities at nominal prices, with liberal discounts on water and power rates. With a large agricultural district tributary to this point splendid openings abound for such enterprises, while careful civic administration has kept the tax rate reasonably low, the present rate being 10 4-5 mills on the dollar.

## **Public Offices**

The increasing demands, not only of the city's population, but of the vast tributary district, have made Moose Jaw an important centre for Government institutions. Here is located the Dominion Lands office, an independent port of entry. The Post Office Inspectors entries.

Moose Jaw has the Land Titles Office for the district, a customs office, an independent port of entry. The Post Office Inspectors for the province and their staffs, as well as the Railway Mail Superintendents, and the Chief Collector of Inland Revenue for the Province all have their headquarters in the City.

### **Agricultural Background.**

The city is surrounded on all sides by a rich agricultural background of 20,000,000 acres, especially well adapted to raising the very best grades of wheat.

Another reason for the optimistic view taken by the citizen and investor respecting Moose Jaw, is the fact that while Moose Jaw has attained its present position when served by a single railway, she will have, in the very near future, no less than thirteen distinct railway outlets opening up some of the finest wheat lands on the continent, all of which will be directly tributary to the City of Moose Jaw.

During last year the Canadian Pacific Railway Company completed their work on the big bridge over the South Saskatchewan River at Outlook. This, gives Moose Jaw direct connection with Edmonton, and as Chicago, St. Paul, Minneapolis, Moose Jaw and Edmonton are in a straight line, will ultimately place Moose Jaw in the unique position of being the junction of the three Canadian transcontinental lines.

The Canadian Pacific Railway, in 1910, made an agreement with the city to build a line to the south country by way of Lake Johnson. With their characteristic energy they have gone about this work, and already the farmers in the district served are shipping wheat over the new branch. This branch will be extended during the coming year to connect up with the Weyburn-Lethbridge Branch, and will also reach a line to Swift Current. The Canadian Pacific Railway Company have also announced their intention of connecting Moose Jaw up with Saskatoon by a branch from Hawarden on the line to Edmonton. The rapidly expanding business of this company has also made it necessary for them to double-track their main line east to Pasqua and west to Caron, which has greatly facilitated the handling of the immense amount of traffic which naturally comes through Moose Jaw.

The 1912 estimates call for this double tracking to be extended further east thirty-five miles and west about the same distance.

In addition to this, it is the intention of the Canadian Pacific Railway Company to increase their yards in Moose Jaw during 1913, and make extensive alterations to their roundhouses, shops and depot facilities.

The Canadian Northern Railway Company has completed the laying of the steel on the Maryfield Extension to within about a mile from the city limits on the south, and as soon as arrangements are made with the city for their terminals, Moose Jaw will have a direct connection with the Canadian Northern Railway Company. This company is also building a line west to Lethbridge and another to Swift Current. It is also expected that the Canadian Northern will, very shortly, connect with Saskatoon and their more northern lines, and, in addition, they have a charter and a survey in from Regina on the east.

## RATES OF POSTAGE

### FIRST-CLASS MATTER.

#### LETTERS

Letters addressed to places in Canada, Mexico and United States, including Guam, Hawaii, Panama Canal Zone, Philippine Islands, Porto Rico and Tutuila, 2 cents per ounce or fraction thereof.

Letters addressed to places in Canada must be at least partially prepaid, and those addressed to Mexico and the United States must be prepaid at least a full rate (2c.). Otherwise they will be sent to the Dead Letter Office.

Letters addressed to places in Canada and partly prepaid will be forwarded, subject on delivery to double the amount of unpaid postage.

Letters for the United States should bear the name of the State as well as that of the Post Office.

Letters addressed to mere initials, or fictitious names, will not be delivered unless addressed in care of a resident or to some box in the Post Office.

Letters addressed simply to a street number or to a room number in a specified building without the name of a person, firm, etc., may be delivered, provided there is only one household or firm in occupation of the premises indicated; otherwise letters so addressed will be sent to the Dead Letter Office as insufficiently addressed.

Every letter for the city should bear name, street and number, no matter how well known the name may be; otherwise it is an incomplete address, and delivery may be delayed.

#### RE-DIRECTED LETTERS.

Re-directed letters are not liable to any additional postage if handed back to the Post Office with a changed address at the moment of delivery or as soon as possible thereafter, provided always the change in the address does not require the letter to be sent to any place to which the postage rate is higher than was at first payable. In this case the additional postage, if not prepaid, will be collected on delivery.

Re-directed letters should not be dropped into a Post Office Box or Receiver unless additional postage has been put on to carry them to their second destination.

#### REQUEST LETTERS

Letters from places in Canada, Newfoundland, Mexico and the United States, covered by envelopes, bearing a request, either printed or written, that the letters be returned to the sender if not delivered within a certain specified time, will be returned as requested if not delivered in the time stated.

Requests, whether printed or written, on packages of Third or Fourth-class matter, and on transient newspapers for return in case of non-delivery, will be complied with; but a charge will be made for such direct return equal to the original postage charge.

#### SPECIAL DELIVERY LETTERS

Letters are sent to their City Addresses between 7 a.m. and 11 p.m. daily, except Sunday, bearing, in addition to the usual prepayment of 2 cents an ounce, a "special delivery" Canadian stamp, addressed to the following cities in Canada: Berlin, Brandon, Brantford, Brockville, Calgary, Charlottetown (P.E.I.); Chatham, Ft. William, Edmonton, Fredericton, Galt, Guelph, Halifax, Hamilton, Hull (Que.), Kingston, Lethbridge (Alta.), London, Moncton (N.B.), Montreal, Moose Jaw (Sask.), New Westminster (B.C.), Niagara Falls (Ont.), Ottawa, Owen Sound, Peterboro, Port Arthur, Quebec, Regina, St. Catharines, St. Hyacinthe, St. John.

St. Thomas, Sarnia, Saskatoon (Sask.), Saugatit, Ste. Marie (Ont.), Sherbrooke, Stratford, Sydney (N.S.), Toronto, Trois Rivières, Vancouver and Victoria, Windsor, Winnipeg. The 10 cents "special delivery" stamp may be obtained at any post office.

**American Special Delivery Stamps may be obtained at the Stamp Counter.**

#### EXPRESS LETTERS AND PARCELS

There is immediate delivery of "Express" letters and parcels, so marked, addressed to United Kingdom. Fee payable there on letters is 6c. a mile from addressee's post office. Fee payable on parcels, 10c., can be prepaid here.

#### POST CARDS

For Canada, Mexico and the United States, 1 cent each. For Great Britain, Newfoundland and all Postal Union countries, 2 cents each. Reply cards for Canada and the United States, 2 cents each. Nothing must be attached to a Post Card.

Private Post Cards, duly prepaid 1 cent each by postage stamp, may be posted in Canada for delivery within Canada, Mexico, and the United States.

Private Post Cards may have a reply card attached bearing 1 cent stamp.

Post Cards (official or private) may be posted in Canada addressed for delivery in any Postal Union country, postage 2c. each. Such cards are admissible as "printed matter," provided they conform to the regulations governing same, in which case the postage rate is 1c. each.

The limit of size for a Private Post Card (Domestic) is 6 in. long by 3½ in. wide.

The British Post Office will recognize as entitled to return to this country the reply halves of Canadian Domestic Reply Post Cards upon which the additional 1 cent postage stamps required have been affixed.

For fear of the reply side of a double post card becoming uppermost, enclose it in a small India-rubber ring.

#### Legal Documents and Commercial Papers

Legal Documents and Commercial Papers, and all other matter either wholly or partly in writing (except the matter specially mentioned under Third-class), are liable to letter rate of postage, 2 cents per ounce, when posted for delivery in Canada.

These papers may be sent to Great Britain, Newfoundland, United States, and all Foreign countries at 5 cents for the first 10 ounces, and 1 cent for each additional 2 ounces. Must be sent in covers open at the ends, so as to be easy of examination.

### SECOND-CLASS MATTER.

#### NEWSPAPERS FROM OFFICE OF PUBLICATION

The despatch of newspapers by mail from office of publication, is governed by the regulations of the Post Office Act, 61 Vic., cap. 20, and all information respecting enclosures, sample copies, etc., can be obtained at the General Post Office.

#### Transient Newspapers and Periodicals.

#### Printed Matter Addressed "The Householder"

Circular matter, duly prepaid, may be posted, addressed simply "The Householder," without the name of any person, or indication of street or number, and will be delivered at every house so far as the supply permits, in places in Canada where there is free delivery by letter carrier. The number of householders in city offices, where the letter carrier system is in operation, can be ascertained on application at the Postmaster's Office.

#### PATTERNS AND SAMPLES

Bonafide Patterns and Samples of Merchandise, not exceeding 3 lbs. in weight, and not of saleable value, may be sent to any place in Canada or Mexico, at 1 cent for each 2 ounces or fraction thereof. #### FOURTH-CLASS MATTER.

Liquids, oils and fatty substances may be sent to places in Canada and the United States as Fourth Class, if securely put up.

##### REGISTRATION

Money letters should always be registered. Every article intended for registration must be handed in at the wicket and a receipt obtained therefor.

The fee on all classes of articles addressed to countries to which matter may be registered is 5 cents.

The sender of a registered article posted in Canada for delivery in Canada, or in any other Postal Union country, may entitle himself to a certificate as to the disposal of the said article by the Postmaster at the office addressed, on prepayment of an additional fee of 5 cents. All classes of matter may be registered to all destinations in Canada and (with the exception of that sent by parcel post) throughout the Postal Union; and letters may be registered to most of the countries not included in the Union.

Senders of registered articles are requested to put their names and addresses in the upper left hand corner of the cover.

The public are reminded that registered letters are only carried on trains that are accompanied by a railway mail clerk. Hence a registered letter and an ordinary letter posted simultaneously will often be received at different times.

In case of the loss in the Postal Service of a registered article posted in Canada for delivery in Canada, the addressee, or, at the request of the addressee, the sender, is entitled to an indemnity, which in no case shall exceed twenty-five dollars, or the actual value of the lost registered article when the same is less than twenty-five dollars, provided no other compensation or reimbursement has been made therefor.

## GENERAL POSTAL INFORMATION

A large number of letters reach the Post Office every day which are undeliverable, by reason of the absence of street and number from the address, while serious delays and vexatious errors occur all the time from the same cause. Whether in business or residential districts, "street and number" form an indispensable part of the address of letters. If business men, however well known, have their street and number printed on their stationery, their correspondents avail themselves of the information, and the Post Office and public are both benefited. Delay to the extent of at least one delivery must occur when reference to the City Directory is necessitated.

**CITY LETTERS.**—Where an addressee's name is in the City Directory, the writer has the same means of completing the address as the post office has, and delay in delivery is avoided.

A street runs sometimes for miles under the same name, and a dozen or more carriers serve its several parts. Where the house number is omitted from the address in such streets, the letter will be returned to writer for amended address, instead of, as heretofore, being tried on every carrier serving that street, and prompter delivery will result. If referred to our Directory Clerks, the wrong person must often be "tried" and time is lost in the same way.

Thinking to save trouble in their own offices, persons mailing circulars, catalogues, etc., in large numbers often address them on long street and number; thus entailing certain delay in sorting and equally uncertain delivery. Banks and companies posting notices and dividend cheques are constant offenders in this way. In the interest of the senders these will be returned in bulk for better address.

Persons living in the neighborhood of the Post Office sometimes complain that they receive letters no earlier than those who live in the suburbs. It would seem almost unnecessary to state that every carrier begins his walk practically at the same time. The position of a house in the carrier's walk governs the time at which letters are received there. These walks are meant to be covered in one hour, or two, according to district and the number of deliveries made in the day. The hour of the first delivery accords with the arrival of morning trains from the East; and a majority of people object to receiving letters before 8 a.m.

Merchants or others having much mail matter to post at or about 6 p.m., when their offices close, are advised to insist on their messengers carrying the matter to the General Post Office, thus avoiding occasional overfilling of the street letter boxes in the central district.

Persons posting circular notices of meetings, etc., where immediate despatch is of importance, would do well to hand them in at the Post Office with intimation to that effect.

The growing habit of using in an address the fancy title of a house, instead of merely the plain street and number, is a frequent source of error at the sorting cases, where the work has to be done by a rapid glance, and the title of the house happens also to be the name of a post-town.

A Carrier is not required to leave letters at any house where he may be in danger of a vicious dog. The owner must call at the General Delivery, till the dog is tied up or otherwise disposed of.

Many persons telephoning to the Post Office resent the reply that their request must be put in writing. But obvious mischief might result from orders for the disposition of correspondence given by an unrecognized voice.

Unused Postage Stamps not being redeemable by the Department should not be used for the remittance of small sums of money, as Postal Notes have been introduced for that purpose.

A letter once posted becomes the property of the person to whom it is addressed, and must be forwarded according to its direction. On no application, however urgent, can it be delivered back to the writer or to any other person.

The sending of a letter or any communication or document subject to letter postage in an open cover does not in any way diminish its liability to letter rate of postage.

Letters bearing mutilated stamps, or stamps so soiled and defaced as to make it impossible for the sorting clerks to decide whether they have been used before or not will be sent to the Postmaster General for his adjudication.

## MAIL COLLECTIONS

On week days the street letter boxes (according to location) are searched from nine times a day in the central districts to twice in the outside, except Sunday.

On Sundays, street letter boxes are searched at 6.00 p.m.

On Public Holidays—New Year's Day, Good Friday, 24th of May, Dominion Day, Labor Day, Thanksgiving Day and Christmas Day—there is a morning delivery only. The outgoing mails will close as usual. Street letter boxes will be collected twice during the day, viz.: 10 and 12.30. The General Delivery will be open from 8 to 11 o'clock.

## LICENSED STAMP VENDORS

The Post Office Act Imposes a fine of \$40.00 (each offence) for the unauthorized sale of Postage Stamps, Post Cards, etc.
